

In-School Only 2024–2025

This survey is designed to provide schools with data useful for fostering a positive learning and working environment that promotes academic success among all students. Your survey participation is very important to ensure accurate and useful data.

The first part of this survey is for all staff and should take less than 15 minutes to complete. The second part is only for staff who provide services or instruction related to health, prevention, discipline, counseling, and/or safety.

- Answer the questions based on your experiences with the school that asked you to complete it, not your experiences with the district overall or with another school where you might work.
- Questions about staff or adults from the school refer to ALL staff — administrators, teachers, teaching assistants, counselors, and all other certificated and classified staff.

All responses are anonymous and confidential. A few questions ask for personal information, such as the work you do at the school, how long you have done it, and your race/ethnicity. But the survey reports provided to your district contain only percentages for all respondents combined. If there are less than five respondents in any group, that data are not made available.

Thank you for taking this survey!
